

Motorized Valve

HW-G3 Series

Features and Benefits

- Forging brass body
- Stainless steel base, aluminum enclosure
- Driven by hermetic unidirectional hysteresis synchronous motor, stainless steel spring reset
- Low power consumption and noise
- Connecting driver and valve body with buckles, ensuring an easy and convenient installation and disassembly

Technical Specification

- Power supply voltage: 220VAC \pm 10%, 50/60 Hz
- Self consumption : less than 7W
- Nominal pressure: 1.6 MPa
- Type of connection: According to BSPP (British Standard for Parallel Pipe) , NPT (American Standard Pipe Taper Thread)
- Operating Time: ON : less than 10s, OFF : less than 6s
- Medium temperature : 5 $^{\circ}$ C--90 $^{\circ}$ C

Ordering Information

Part Number: GST-G2-1/2-S2

Description: Motorized Valve, For 1/2" pipe size

Part Number: GST-G2-3/4-S2

Description: Motorized Valve, For 3/4" pipe size

Part Number: GST-G2-1-S2

Description: Motorized Valve, For 1" pipe size
